Microsofts only crime since the beginning of this whole so called LEGAL and I use the term loosely, circus, has been to create a great company that is good for america and everyone who uses thier products. Not only are other companies wanting what microsoft has created, but so does our gov. microsoft has done no wrong to me or anyone else that i know or have talked to. MY GOV. can only find microsoft not guilty of wrong doings and let the world of FREE trade go on like it should. MY VOTE IS FOR MICROSOFT AND A GREAT AMERICAN--BILL GATES

THANK YOU
